Eat plenty of foods rich in vitamin C and other antioxidants. These nutrients help prevent sperm defects and boost motility (movement). An 8-ounce glass of orange juice has about 124 milligrams (mg) of vitamin C. Aim to get at least 90 mg a day - more if you smoke (at least 125 mg). Get enough zinc.

Fitness Fertility~~

The fertility diet increased the chances of ovulating among women who ate the diet, which

Read Book 28 Day Fertility Diet Baby At 40

automatically improved their fertility. Things that make up the fertility diet, according to research on the topic, include eating a diet low in trans fats and sugar, while being high in protein found in plant sources rather than animal sources. A diet rich in fiber is also important in a good fertility diet. Iron and vitamins should be included in any diet that increases fertility.
