The 1995 National Household Education Survey (NHES:95) was a random digit dial telephone survey of households developed by the National Center for Education Statistics. The NHES-95 included two topical survey components: the Adult Education component, which collected information about adults' participation in adult education, and the Early Childhood Program Participation (ECPP) component, which collected information about children's participation in nonparental child care and early childhood programs. This manual provides documentation and guidance for users of the public release data file for the ECPP component. Information about the purpose of the study, the data collection instruments, the sample design, and data collection and data processing procedures is provided. Some information about factors that should be kept in mind when using ECPP data is also provided. For the ECPP component, interviews were conducted with parents of 14,064 children, a figure that included 101 home schooled children. Four appendixes present screening and study questionnaires, information about the file layout, the Statistical Analysis System code for derived variables, and the ECPP codebook. (Contains 8 tables, 2 figures, and 23 references.) (SLD)

Magic Lantern is broadening its sights and has turned its attention to the innovative compact digital cameras that are now appearing in the market. These new compacts allow photographers to retain creative control over their images, yet come without the heavy kit to drag around - making them an increasingly popular choice for both professionals and amateurs. The versatility of the Canon G10 is almost unheard of in a digital compact camera - particularly for photographers moving up from basic compacts. Jason Schneider will walk them through every feature and function so they can use this remarkable camera to its fullest potential
