The main kind of punishment applied by Vlad, the one which brought about the Turkish nickname of Kazkli (Tepes - the Impaler) was impalement. This punishment is of Asiatic origin; in Antiquity, the Assyrians used it to execute their prisoners, as shown by the bas-reliefs; Herodotus mentioned its use with the barbarians of Asia.

Moral of the story: Don't let Vlad catch you stealing or your family pays the price or eats it more precisely. 4. Genocide. Needless to say, Wallachia was not a wealthy country. And their ruler was also poor in compassion and charity. Once, Vlad gathered all the beggars for a feast... only to burn them down afterward.

Vlad Tepes III was born between 1428 and 1431, the second son of Vlad Dracul (The Dragon). Vlad II led the order of the dragon thus giving him the name Dracul, this being the case, Vlad III obtained the title Dracula (Son of the Dragon). Vlad was given the name "The Impaler" because his preferred method of punishment was execution by impalement. Although impalement has been described throughout history as torture, Vlad was an advocate of law and order and believed this penalty would ...

The Gory History Vlad (The Impaler) Tepes | Carolina Fear Fest

Impalement, of the many methods of torture and punishment that the human mind has ever come up with, we can consider the most vile and repugnant. It's a method used since ancient times, witnesses reported the use of Impalement in the barbarian regions. It's curious that in areas such as Algeria or Tunisia, some men were found guilty of treason were impaled.

Vlad the Impaler was well known for the punishment that he adopted, the impalement, this is the reason why he was named Tepes, which means The Impaler. The method of impaling criminals and enemies and raising them aloft in the town square for all to see is associated with his ruthless image. Almost any crime, from lying and stealing to killing, could be punished by impalement. Vlad the Impaler used various means of torturing including, cutting of limbs, blinding, strangulation, burning, cutting off noses and ears, mutilation of sexual organs, scalping, skinning, exposure to the elements or to wild animals and boiling alive. Death by impalement was slow and painful. Victims sometimes endured for hours or days. Vlad the Impaler often had the stakes arranged in various geometric patterns. The most common pattern was a ring of concentric circles in the outskirts of the city that was his target. The height of the spear indicated the rank of the victim. The decaying corpses were often left up for months.

From Thomas Becket to Charlemagne, from Leif Erickson to Count Dracula, this series of biographical essays separates truth from legend as it explores the lives of some of the most accomplished and influential figures of medieval history. * Contributions from 18 accomplished scholars and writers bring their fascinating medieval era subjects to life in 20 entries—18 biographical and 2 topical entries * Bibliographical references and "Suggestions for Further Reading" for each chapter

Vlad the Impaler - The Real Dracula is a biography of the 15th century Wallachian Prince in what it now modern day Romania. Vlad the Impaler was the inspiration for the main character in Bram Stoker's Dracula novel which was originally published in 1897 and loosely based off of the real person. Vlad the Impaler got his name because he used cruel punishments against his political enemies, most notably impaling them with a large stake and sticking them in the ground to die. During the impalement, Dracula had the blood collected and he dipped his food in their blood, which is what made him known to this day as a blood drinker. Vlad ruled Wallachia during the periods of 1448, 1456-62, and 1476. Vlad the Impaler - The Real Dracula is a highly recommended publication for those interested in learning the details of the story of Vlad the Impaler and also for those who are fans of Dracula and would like to learn about the real man behind the story.

A study of Ivan the Terrible's depiction in Russian folklore, and the controversies surrounding it.

This book probes the extreme variation in discourses on violence and punishment. Its comprehensive examination brings together normative political-theoretical discourses on punishment, historical changes in violence and punishment, and perspectives on punishment from political powers, world

religions, literature and film, criminology, and theodicy.

*Includes pictures of Vlad and important people and places in his life. *Includes historical accounts that describe Vlad the Impaler and his notorious rule. *Discusses the authenticity of the accounts accusing Vlad of impaling tens of thousands and his other infamous misdeeds *Analyzes Vlad's legacy and his association with Bram Stoker's Dracula. "And then he put many people on spinning wheels and killed them. And he also did many such other inhuman cruelties that were talked about in many countries." - A German legend about Vlad Dracula A lot of ink has been spilled covering the lives of history's most influential figures, but how much of the forest is lost for the trees? In Charles River Editors' Legends of the Middle Ages series, readers can get caught up to speed on the lives of important medieval men and women in the time it takes to finish a commute, while learning interesting facts long forgotten or never known. Many medieval figures are shrouded in mystery due to the scarcity of available sources and to the difficulties posed by the interpretation of historical narratives dating from this period. And even when there is enough documented evidence to put together a sufficiently coherent biographical account, other sources and accounts may emerge that flagrantly contradict the already established and generally accepted historical narrative. Nowhere is this more evident than in the legacy of Vlad III Dracula, who history has recorded as one of the most notorious and bloodthirsty tyrants of the 15th century. In addition to lending the name Dracula to Bram Stoker's famous vampire, Vlad is known around the world by the cognomen Vlad the Impaler, due to his reputation for impaling thousands of his enemies. Vlad was reputed to be such a tyrant that his reputation and stories of his deeds spread across Germany and the rest of Europe during his lifetime. However, two very conflicting images emerge when contemporary narratives and chronicles are considered. On the one hand, he is portrayed by a variety of sources as a blood-thirsty tyrant with a penchant for devising unnecessarily cruel punishments. But on the other hand, he appears as a heroic and brave fighter against the Ottoman Empire's ongoing threat towards Wallachian territorial integrity and autonomy. There are probably grains of truth to both depictions; Vlad did indeed implement an authoritarian internal policy in order to increase his power within the state, while also attempting to defend Wallachian independence in the face of both Hungarian and Ottoman encroachments. The accounts, however, are divergent in almost every other respect, including the specific character of his punishments and the motivations outlining them, the number of victims, and, most significantly, the personality of the ruler himself. Naturally, trying to determine who Vlad was and what he was really like has been made more complex by the subsequent fame he achieved in Europe and beyond, beginning with the dissemination of the German and Slavic 15th century narratives that aided in the construction of a diabolical, mythical-like figure that has been passed down throughout history to today. Bram Stoker's widely-read novel, as well as its subsequent

adaptations, added to the confusion by directly linking the infamous monster of South-Eastern Europe, the wampyr, with the figure of Vlad III Dracula. Even today, for most people Dracula brings to mind Stoker's character, and only rarely the historical figure itself. Legends of the Middle Ages: The Life and Legacy of Vlad the Impaler chronicles the historic life, reign, and legacy of the notorious leader, but it also examines the controversial legends and tales about him in an attempt to separate fact from fiction. Along with pictures of important people, places, and events, you will learn about Vlad the Impaler like you never have before, in no time at all.

Cazacu's Dracula offers the most authoritative scholarly biography of Vlad III the Impaler (d. 1476), including how his imagery evolved from contemporary to modern times.

From the gender of God to what happens when we die, Questions for Christians digs into some of the thorniest questions of the Christian faith—questions that many people would rather ignore. Drawing on sources both ancient and modern, John Morreall explores issues while identifying points of controversy. Some of the answers are surprising, while others provide a more complete understanding of common beliefs.

This book is about how to study crime. It addresses the controversies in crime as a means of developing answers and of contributing to the resolution of disputes and as a means of introducing and explaining basic methods of a social science of crime.
