"A remarkable achievement" Spectator An adventure story of politics, philosophy and printing from the age of Queen Anne In the summer of 1705, a masked woman knocked on the door of David Edwards's London workshop. She did not leave her name, only a package and a coded means of identifying her courier. Edwards was a Welsh printer working in the dark confines of Nevill's Alley, outside the city walls. The package was an illegal, anonymous pamphlet: The Memorial of the Church of England. The argument it proposed threatened to topple the government, but sedition sold well in the coffeehouses of Fleet Street and the woman promised protection. Edwards swiftly set about printing and surreptitiously distributing the pamphlet. Parliament was soon in turmoil and government minister Robert Harley launched a hunt for all those involved. When Edwards was nowhere to be found, his wife was imprisoned and the pamphlet was burnt in his place. The printer was not the only villain, though, and Harley had to find the unknown writers who wished to bring the government down. break-neck political adventure. Joseph Hone shows us a nation in crisis through the fascinating story of a single incendiary document. "An elegant blend of scholarship and detection that reanimates the dangerous, exciting, clandestine world of Fleet Street at the start of the modern age" Peter Moore, author of Endeavour

From a wartime beach in Wales to the gleaming skyscrapers of twenty-first-century Manhattan, the extraordinary career of Fleet Street legend Harold Evans has spanned five decades of tumultuous social, political and creative change. Just how did a working class Lancashire boy, who failed the eleven-plus, rise to a position where he could so effectively give voice to the unheard? Born in the bleak years between the wars in the sprawl of Greater Manchester into a thrifty, diligent and loving family, Evans inherited only the privilege of his parents' example. Theirs was a work ethic that led Evans through night school classes, national service and a passionate commitment to regional life, and, finally, to his unassailably successful editorship of one of our greatest newspapers, the Sunday Times. Whether unpicking the murderous chaos of Bloody Sunday, pursuing a foreign correspondent's murderers or uncovering the atrocity of Thalidomide, this consummate newsman evokes his contagious passion: for the real story and the truth.

Before the Paper Chase: The Scholarship of Law School Preparation and Admissions contains the best of the recent qualitative and quantitative research on the law school application process and the law school experience. Over the years, numerous books have offered advice to students on how to get into law school; no work, however, has ever provided those interested in law school with information about what the scholars say about legal education and the admissions process. The editors have gathered insightful articles from academic journals and law reviews on a variety of topics relevant to the admissions experience, including the Law School Admissions Test; the ranking of law schools by national magazines; the most reliable first-year success indicators, including the significance of the undergraduate major; future employment patterns; law school tuition and the consequences of student debt; and the psychological impact of the law school experience. Their analysis will help demystify the admissions process for students, provide prelaw advisors with information that will enhance their counseling, and offer law school admissions officials an opportunity to consider how scholars from a

wide variety of disciplines are evaluating their institutions. Students and prelaw advisors alike will find the book an informative and, at times, disconcerting work.

One L, Scott Turow's journal of his first year at law school and a best-seller when it was first published in 1977, has gone on to become a virtual bible for prospective law students. Not only does it introduce with remarkable clarity the ideas and issues that are the stuff of legal education; it brings alive the anxiety and competitiveness--with others and, even more, with oneself--that set the tone in this crucible of character building. Each September, a new crop of students enter Harvard Law School to begin an intense, often grueling, sometimes harrowing year of introduction to the law. Turow's group of One Ls are fresh, bright, ambitious, and more than a little daunting. Even more impressive are the faculty. Will the One Ls survive? Will they excel? Will they make the Law Review, the outward and visible sign of success in this ultra-conservative microcosm? With remarkable insight into both his fellows and himself, Turow leads us through the ups and downs, the small triumphs and tragedies of the year, in an absorbing and thought-provoking narrative that teaches the reader not only about law school and the law but about the human beings who make them what they are. In the new afterword for this

edition of *One L*, the author looks back on law school from the perspective of ten years' work as a lawyer and offers some suggestions for reforming legal education.
